About Fever

The members of Fever are all top quality professionals with extensive experience in the music and entertainment industry. The players in the band had all met and played together in other groups for a good part of the last decade, and Fever officially formed in 2012.

The extremely diverse musical backgrounds of the band allow them to meet practically any challenge presented to them. Each member has spent the majority of their life studying music.

Fever represents alumni from the music programs of Berklee College of Music, UMass, University of Miami and Westfield State University and have shared the stage with artists such as Aretha Franklin, The Four Tops, The Temptations, Charles Neville, Yusef Lateef, Johnny Mathis, and have played and recorded with countless other acts across the country.

Fever is a dance band out of Western Mass that is well-equipped for any type of event. We have two female lead vocalists, male lead vocalist/guitarist, keyboardist, bassist, drummer, saxophonist, and trombone player (who also plays guitar, keyboard, synth and vocoder). We offer the option to add on instruments, and you can make the band as big as you want. We often add a trumpet player into the mix, or sometimes a second guitarist. With the talent and instrumentation in this band we are able to cover an incredibly wide range of material and we play many different genres of music. We can tailor our set list to whichever genres you prefer for your event. Our band has lots of experience playing weddings, corporate parties and private events, casinos, Town Of events, colleges and clubs.

Our standard package includes classy, high-energy stage lighting, which sets us apart from a lot of area bands. Lighting plays a large role in creating ambiance and enhancing the performance—see our promo video for proof! You can upgrade your lighting package with options that include uplighting, additional stage lighting, dance floor lighting, trussing, and more.

Reviews

"Hired Fever for our open house event (Finke Equipment) and when they arrived they hit the ground running. The band played all the top artist and more. The sound was amazing and the performance was amazing. They kept the crowd rocking and active all four hours, they were so good we booked them an additional hour. They rock!"

—Steven M.

"The band Fever did a fantastic job at our wedding. All of our guests still talk about the wonderful job that Rickie and the band did for us! The band had a given us a great selection of music and let us choose songs that were special to us. The lights that were used during the reception were an awesome touch to their performance. Hendrix did a really good job announcing us in to the ceremony and throughout the reception. Overall all a very good performance and highly recommended by us and our family and friends!"

—Jen & E. S.

"Rickie and the band played a special private party this past weekend for a group of 50 to 60 folks and did put on a fantastic performance. We had guests from all ages (teens to 80 years old), and everyone enjoyed the show. There were also professional musicians in attendance who were impressed as well. You cannot go wrong with this band!!"

—Bob G

"My husband and I were just married at Hotel Northampton on October 11th. We were very lucky and had a gorgeous, fall day surrounded by our closest friends and family. Fever Band played as a jazz trio for cocktail hour and it was simply perfect. It really added a special touch to the whole evening. Their 6 piece band played at our reception and it was truly amazing...I wish we could do it all over again!"

—Megan D.
